

Open space master plan

Heritage Park

A unique opportunity to provide and stimulate social, cultural and heritage benefits for Caboolture and South East Queensland.

Northeast Business Park recognises the area's rich regional Aboriginal, South Sea Islander and European heritage.

Northeast Business Park also acknowledges the contribution of Australian South Sea Islanders. Planning of the park will include community consultation to celebrate our diversity and collective histories.

The site has a number of historic farm and pine plantation remnants, which are currently inaccessible to the community.

Northeast Business Park Pty Ltd proposes to set aside 50Ha to preserve the remains of a former farm and pine plantation and create a Heritage Park for the community to enjoy.

Davies Heritage Consultants have undertaken a cultural heritage assessment of the site. A **Cultural Heritage Management Plan** is underway. This will ensure all culturally sensitive aspects of the site are protected and managed in accordance with a Cultural Heritage Plan for future generations.

Heritage Park concepts include

- ...riverine rainforest rehabilitation
- ...protection of heritage remnants
- ...interpretive displays of homestead
- ...Heritage Walk
- ...Sculpture Walk
- ...biennial sculpture competition
- ...ephemeral art in nature
- ...picnic areas
- ...district playground
- ...canoe landings
- ...walking and cycling trail links
