

Community Engagement - your opinion is important to us

Good development doesn't just 'happen'

Northeast Business Park as a **'project of State significance'**, is undertaking extensive technical and specialist studies to ensure that our proposal embraces the challenges that may present and inform environmentally sustainable practices. This will help us plan and respond to the diverse cultural interests, leisure, employment and lifestyle choices of our community and for future generations.

Collaborative partnerships

We cannot meet the challenges of planning alone. We **seek your active participation** in the following areas to inform us of what is important to you to achieve an environmentally balanced community, which offers local and regional economic prosperity, a sense of belonging and community, and informs the Environmental Impact Assessment studies.

Suggested areas you may want to provide comment include:

- ☞ **Context:** Identifying what is important to you, the strengths and limitations of our proposal, your concerns and suggested solutions
- ☞ **Character:** Reflecting and enhancing the distinctive character, heritage and identity of our environment
- ☞ **Choice:** Ensuring diversity and choice for people
- ☞ **Connections:** Enhancing how community networks link people together
- ☞ **Creativity:** Encouraging innovative and imaginative solutions
- ☞ **Custodianship:** Ensuring design is environmentally sustainable, safe and healthy
- ☞ **Collaboration:** Communicating and sharing knowledge across sectors, professions and with communities
