Attention: Michael ALLEN

Letter of Support for Northeast Business Park.

My name is David Fuller and I am the current president of The Caboolture Central Business District Retailers and Traders Association. We are a business group established for ten years involved in the development of our Central business district for the benefit of business and the general community.

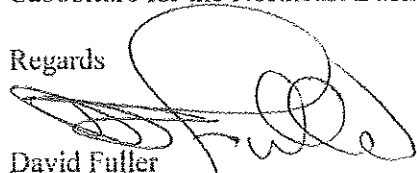

We regularly consult with Council, Police, Welfare, Community and other business groups on such things as Customer Parking and other issues, law and order and security, landscaping the environment and any other matters affecting the Central Business District, at the same time networking between our forty five members.

On behalf of our group I would like to welcome Northeast Business Park to our area, we see the project as an exciting piece of infrastructure which will greatly enhance our region, the health of our river systems are always on the minds of the community and the large open spaces in the plan shows that NEBP is also an environmentally concerned company.

The inclusion of the industrial park will provide local jobs and encourage people to do business locally. We as a group believe with the influx of people to our area there are opportunities for companies such as NEBP to set the pace and standard of development.

Please accept the full support of the Central Business District Retailers and Traders of Caboolture for the Northeast Business Park.

Regards

David Fuller  
President
