TO WHOM IT MAY CONCERN

**'Mixed Industry and Business Park' welcomed by  
local community-based broadcaster**

Radio 4OUR - 101.5fm is pleased to offer this letter of support for the proposed concept of the *'Northeast Business Park'*.

The radio station is operated with the keen support of a team of passionate volunteers – it truly is a broadcaster 'for the community, by the community'.

It's local.

It's parochial.

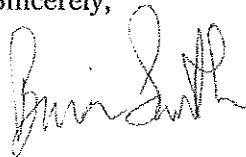

As a leading voice of the region, we believe *Northeast Business Park* is positioned ideally to improve the lives of our listeners and supporters.

It offers:

- an inspiring destination for socializing, recreational and family activities;
- a productive and motivating workplace environment;
- strategic positioning midway between the Sunshine Coast and Brisbane, ideal for industry, commerce and liveability;
- an exceptional opportunity to bring community organisations from surrounding regions together, and many other benefits.

We believe such a project will lead to enhanced prosperity and a better way of life for the people in the local and surrounding region, which inherently carries with it a positive 'ripple effect' for the entire 'northern Brisbane' region – which is all good news for the entire community.

Sincerely,

Brian Smith  
Station Manager
