Dear Sir/Madam/Jeft

Thankyou very much for the copy of
the Northeast Business Park EIS + Consultation dated
16th January. Also have included our new address.

You mention 4EB transmits in six languages. The only one
I did not know was TAGALOG. Is that a ~~some~~ Tonga dialect?

You must ^{be} commended in the thorough planning and keeping
the public up-to-date. It is a pity some other developers do not
follow your example

My wife & I are looking forward to your next public display
of your progress.

Yours in appreciation,

Trevor L. Percival

& the wife is 60

(OVER)

My wife & I both received a copy. May I suggest, to save
wasted money, you only send one copy per household as I
know if you add up all the postage it would save money
& help the environment by less paper.
